AFRL Rome awards contract to BAE Systems Portal

by Fran Crumb, Information Directorate

ROME, N.Y. — The Air Force Research Laboratory (AFRL) Information Directorate has awarded a \$49,854,000 contract to BAE Systems Portal Solutions Inc. of Fairfax, Va.

The five-year agreement is an “indefinite-delivery/indefinite-quantity” contract, allowing for a variety of tasks to be performed up to the ceiling cost. Work will include system engineering, integration management and configuration management support for the Department of Defense Intelligence Information System (DoDIIS) and the U.S. intelligence community worldwide.

“BAE will provide engineering support for analysis, testing and development of a variety of intelligence programs related to

DoDIIS and the Air Force in general,” said Dennis O. Jones, program manager in the directorate’s Information and Intelligence Exploitation Division.

“This contract is part of the System Engineering and Evaluations, System Analysis Worldwide II (SEESAW II) program,” said Jones. “Taskings can include a wide variety of work ranging from analysis of new requirements to maintenance of current systems worldwide.

Most of the work under the contract is expected to be performed at the company’s local facilities.

Kathleen A. Woodard of the directorate’s Contracting Division negotiated the BAE agreement. @
